

Assignment #1

Develop a script that prompts the user to enter a path. Determine if it is a directory or a file. If it is a file, check if it is empty or not. In addition, determine the size of the file.

Sample Out for directory:

/path/to/dir is a directory.

Sample Out for file (empty file):

/path/to/file is a file. It is an empty file.

Sample Out for file (non-empty file):

/path/to/file is a file. The size of the file is 10K.
